

“Verizon’s fiber service blew them all away.”

PC Magazine, August 22, 2006*

When it comes to speed, Verizon FiOS Internet tested faster than Optimum Online, Cox, Comcast and a whole lot more.

Recently, 10,000 readers of *PC Magazine* took their Internet service providers on a speed test. And the results were clear: “At an average of 271 kilobits per second, fiber was 35 percent faster than cable...”

Internet service powerful enough to do it all. FiOS Internet lets you easily stream clips on YouTube™. Quickly post photos to online albums and purchase MP3s. And, because our network goes all the way to your home, you can be sure you’re getting 100% fiber-optic power all the time.

Get started with our ultrafast 10 Mbps package for only \$39.99 a month, when you sign up for a year. We’ll even include a home networking router and professional installation. So all your computers can connect to the high-speed service that’s got the experts talking.

Offer for new Verizon FiOS Internet customers only. One-year commitment required. \$19.99 activation fee will apply to each FiOS Internet order. Verizon FiOS Internet is provided by Verizon Online and is not available in all areas. Service availability subject to final confirmation by Verizon. Verizon installation required. Free installation includes main computer only (there will be an extra charge for all additional computers). Acceptance of Verizon Online Terms of Service is required. Minimum system requirements apply. Equipment provided will be new or a fully inspected, tested and warranted return unit. Limited to one router provided at no charge per household per FiOS service, FiOS Internet and/or FiOS TV. If service is cancelled between months 2 and 12, \$69 early termination fee may apply, and router provided at no charge must be returned or \$99.99 equipment fee applies. Month-to-month packages are available. The 30-day money-back guarantee applies to Verizon Online charges only. CAT5 or higher-grade inside wiring or existing RG59/RG6 coaxial cable is required. Only Web-based features of Verizon Yahoo! for FiOS are Macintosh® compatible. Software for MSN® Premium versions of Verizon FiOS is not Macintosh® compatible. Connection speeds are between your location and the Verizon central office serving your location. Actual download and upload speeds will vary based on numerous factors, such as the condition of wiring at your location, computer configuration, Internet and network congestion, and the speed of Web site servers you access, among other factors. Speed and uninterrupted use of the service are not guaranteed. Current Verizon High Speed Internet customers who move to FiOS Internet service will have their Verizon High Speed Internet permanently disabled after their FiOS conversion. Applicable taxes apply. Valid through 2/16/07. Other terms and conditions apply. Offer subject to change without notice.

Power for services provided on the Verizon FiOS network must be supplied by the customer. Customer is responsible for backup battery replacement. Backup battery does not supply power for Internet, VOIP or video services. In case of power failure, 911 service (except through VOIP) will be available until the backup battery expires. Certain telephones, answering machines and other telephone equipment not meeting industry standards may not work with service provided on the Verizon FiOS network.
